

# Pirate island

## Swim to an exciting island

This great play island is a perfect attraction for a pool. Kids can jump off it into the water and then climb back on again. The pirate theme completes the fun. The item is airtight, which means the attraction only has to be inflated once and no continuous blower is required. All set to impress with this distinctive water attraction!

## Certified water attractions

For years, JB has developed and manufactured water attractions that can safely be used. All water games we offer are certified in accordance with the NEN-EN 15649:2009 safety and quality standards. We provide an approved inspection certificate, a log book and a clear manual for all water attractions. To ensure the right air pressure is entered, all products come with a Bravo air pressure gauge. The anchor points have to be fastened with appropriate anchoring materials to keep the product in place and prevent it from floating off or getting too close to other objects. The play island has specially designed handles for good grip – safety first!

## High quality demands

JB is proud of its products and, therefore, sets high demands. In order to guarantee quality, we use high frequency welded PVC material of 900 gr/m<sup>2</sup>. Not only are these materials strong and colourfast, they are also resistant to influences of chlorine and other water properties. This means you can rest assured the attractions are durable and easy to clean. The pirate island comes with a 1-year warranty.

Purchase this inflatable pool play island and deliver the experience your customers will remember as a splashing day of water fun.

## Opt for JB, like more than 15,000 customers have done before you

For over 15 years, JB has made people around the world jump for joy. That's right, more often than not literally! Our team of designers, developers and logistic staff supply unique inflatable attractions in a grand way! That is exactly why our customers are assured of our professional service and delivery. Therefore, they tend to call us 'creators of greatness'.
